Dear Parents, Teachers and Students,

Hello, everyone! I am Principal LI and I would like to express my heartfelt thanks and appreciation to all of our teachers and students for their hard work. Each and every one of you has put in so much effort to make our school a vibrant and fulfilling place.

As a headmaster, I am keenly aware that our school is not just an educational institution, but a cradle for future talents. Our mission is to provide quality education to our students, to develop their academic ability and moral character, and to enable them to become talented and responsible individuals.

Education has become even more important in today's rapidly evolving society. We need to teach our students how to find their place in an information-overloaded and competitive society, and to become successful and influential individuals. This requires us to keep pace with the times, to innovate teaching methods and curricula, and to provide more opportunities and resources for students.

However, education is not only about the transmission of knowledge, but also the cultivation of values. We have to teach students correct values and moral standards, and cultivate their civic awareness and sense of social responsibility. Only in this way can they truly become beneficial to society.

In this process, we need to build a culture of care and respect so that everyone feels cared for and supported. Trust and co-operation between parents, teachers and students is the key to our success. I encourage everyone to respect, understand and tolerate each other and work together to create a positive and congenial learning environment.

Finally, I would like to tell our students that we believe in your potential and abilities. Everyone has unlimited possibilities, and with hard work and perseverance, you will be able to realise your dreams.

*Li Man Huen*
